About the Agency

The Workplace Gender Equality Agency (WGEA/Agency) is the Australian Government's key agency charged with promoting and improving gender equality for both women and men in Australian workplaces, through the provision of advice and assistance to employers and the assessment and measurement of workplace gender data. Our Agency was established by the *Workplace Gender Equality Act 2012 (Act)*.

Our Agency has two distinct functions: a regulator and driver of change. In our regulatory role we administer the Act which requires all private sector employers with 100 or more employees to report against six gender equality indicators, which have been developed to address the most pressing contemporary challenges to gender equality in Australian workplaces. The Agency is also in the process of expanding to collect data from the public sector.

As a driver of change our Agency seeks to motivate, educate and influence improved gender equality in Australian workplaces by promoting informed, evidence-based public discussion and understanding of gender equality, collaborating strategically to build strong relationships between the Agency and its stakeholders, using the Agency's data-rich research to position it as the leading source of information and advice on workplace gender equality issues.

Further information about our Agency is available at www.wgea.gov.au
